## BEGIN HEARINGS UPON FAMOUS R. R. PAY CASE

WASHINGTON, Nov. 4.—Hearings began by the interstate commerce commission today on the much-mooted railway pay case.

On recommendation of Postmaster-General Burleson, congress in 1917 provided in the postoffice appropriation a space basis instead of weight, as in the past. The railroads protested and were prepared today to show the commission that they are not properly remunerated for services under the plan.

## AVOID "FLU" AND PNEUMONIA BY STERILIZING NOSE

### London Epidemic of 1891

Proved Ol. Eucalypti (Eucalyptine Salve) Is Most Effective Preventive Known.

Get out your jar of Eucalyptine Salve or, if you have none, go to the nearest drug store at once and get a family jar of this well-known nose and throat sterilizer. Sterilize morning and night by sniffing the Eucalyptine up into the nostrils and back into the throat, whence it will spread to the larynx and tonsils, thus sterilizing this nose and throat.

The chief ingredient of Eucalyptine Salve is Oleum Eucalypti, the non-poisonous antiseptic whose power to prevent influenza was first discovered in the London epidemic of 1891. In addition, Eucalyptine Salve contains just enough camphor, menthol and oil of white pine to make it soothing, healing and delightful to use. Even the babies enjoy it. Ask any well-informed physician and he will tell you that Eucalyptine, though originally designed by the nose and throat specialists for the mother's use with her children in colds, croup and to prevent pneumonia, is the best and most agreeable antiseptic you can use to sterilize the nose and throat of young and old alike.

Note—One application of the product referred to above sterilizes the air passages for about twelve hours against diseases contracted through the nose and throat. Any druggist can supply you for half a dollar.

A selling event that will mark a new epoch in Memphis retailing—for it is bound to make its importance felt throughout the Southland.

The unusualness and magnitude of this selling occasion is due to the advantages secured by our buyers, who have just returned this past week from the market—which was completely shattered by the unseasonable weather and the prevalent epidemic (the Spanish flu). Business was at a standstill, and a cash buyer could accomplish much. We were there in full force to secure the stylish quality bargains, and we got them aplenty.

## BANNING WRITES WAR WORK FUND EASY

"That is a heap of money you are planning to raise in the united war work campaign beginning next week, but if the people at home could just realize what the 'Y' and other organizations are doing, your 'job' of securing the money would be easy," writes Clarence Banning, of Memphis, now in training at Camp Bowie, Fort Worth, Texas, in a letter to S. M. Jackson, secretary of the local Y. M. C. A. Mr. Banning is a member of the most aggressive workers on the team of that organization, which raised 20 per cent of the entire Y. M. C. A. war work fund in Memphis last November. And one of his most serious regrets is that he is unable, in the light of the knowledge he has acquired through actual experience, of what the 'Y' and other welfare organizations are doing for the soldiers, to participate in the present campaign.

Really, no one at home can appreciate what the 'Y' means to the soldiers," he says in his letter. "It furnishes us our only place of amusement, extends its good influence around us, and offers the only place in camp to write to mother and friends."

"I would come to the campaign last year, and am sorry I can't do anything this year. I know what I am talking about."

"And just think, if the 'Y' means so much to us in camp in this country, what it and the other welfare organizations must mean to the boys over yonder."

"I don't believe you will have any trouble getting the money, but if any of my friends even hesitate when approached, tell them, for me, not to turn down this opportunity of assisting in one of the greatest things undertaken for the benefit of American soldiers at home and abroad."
